### **DETAILED ACTION**

1. Applicant's election without traverse of group I, claims 1-14 and 16-21, with election of species, in the reply filed on 8/28/2006 is acknowledged.

#### ***Information Disclosure Statement***

2. The foreign language documents cited on applicants IDS filed 7/1/2004 and 10/13/2004 have been considered solely on the basis of: applicants' discussion thereof in the specification; portions translated into English as provided by applicants; or as cited on the International Search Report.

#### ***Claim Rejections - 35 USC § 112***

3. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

4. Claims 12, 13, 19 and 20 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In these claims, the composition is stated to be in the form of a multilayer film, multilayer sheet, multilayer extrusion molding, or multilayer injection molding. However, the intended scope is indefinite because, from the language of the claims (e.g., "which is a multilayer film"), it cannot be determined whether the articles require that the

copolymer composition form at least one layer, or whether the copolymer composition is required to form more than one layer, in the overall multilayer structure.

5. Claims 1-11, 14, 16-18 and 21 are allowed over the English-language prior art currently of record. However, at the time of this Office action, an English translation of JP 9-316286, cited as "X" on the ISR of the PCT application, was not available. Accordingly, a complete search of the prior art was not possible. The translation will be reviewed, and the search may need to be extended in light of the translation, at the next Office action.
